Larry,

ED_006490_00003426-00001

Here's a modified Administrator's Briefing Paper for Oak Ridge with an Appendix that includes: a placeholder for some definitions, detailed discussion of the issues and status of discussions on each issue and a discussion of litigation risk. I think looking at the clean version with comments will be the clearest way to see the document.

Please see what you think and we can address your comments/questions. We can send to the principals on Monday or you can send directly to them. Note that Dimple used an old version of the briefing paper to comment on so we had to make some conforming changes that were previously made to better comport with an earlier principals meeting.

We will also have comments on the first version of the litigation risk paper (I haven't looked at what Lorie just sent) but we'll send that later.

Thanks to Chelsea who really did wonders with this. See below for her information on the different documents.
